Subject: Microsoft settlement

Hello:

I would like to express my opinion on the Microsoft settlement. First of all I think suing a comp that brought so much money and has created so many jobs for this country is totally out of line. You can not single hand out Microsoft for being the best in what they do, there are so many comp in this country that have monopoly(Las Vegas area could be a great example, casinos, convenient stores, shopping centers, all owned by one persons or one corporation). I believe Microsoft offer is great and the government should except that, and let them move forward in this really bad and unstable economy.

thank you so much for your time.
